Special performance of **"Learning Curve: Confessions of a Special Ed Kid"** performed by Jodie Knowles! This honest, raw, and emotional performance gives validation to those

that often feel alone and different. Told from a personal perspective, Jodie hopes that all educators, teachers, school counselors, parents, activists, and civic leaders begin to understand the lived LD/ADHD experience, not only the academic struggle, but the social and emotional reality that students in Special Ed go through every day.

\$279 (includes continental breakfast, lunch and materials)
